

For Immediate Release

Testing Machines Inc, Field Service successfully completes A2LA re-assessment

March 16, 2010

Mike Moore, quality manager of Testing Machines Inc, Field Service department reports “our world class calibration department has been re-accreditation by the American Association for Laboratory Accreditation (A2LA) meeting the requirements of ISO/IEC 17025 and our new certificate has been issued.

<http://www.testingmachines.com/pdf/A2LA-accreditation.pdf>

During the 3 day assessment, two service engineers were required to demonstrate to an A2LA auditor our calibration proficiency for 16 testing instrument types included in our scope. Mr. Moore states, “this accreditation by an external body underlines our commitment to offering the highest level of [technical and professional calibration services](#) to our customers.”

In addition to our [scope of accreditation](#), our field service department provides calibration services globally for complete testing laboratories for materials including Paper, Plastics, Packaging, Plastic Film, Labels, Textiles, non-woven’s and others. We have established a team of professional service engineers with offices in Europe, US, Canada and Asia providing technical support to meet your instrument calibration needs.

For a quotation to calibrate your laboratory instruments, contact our Headquarters listed below for details:
