

## TMI GROUP OF COMPANIES

### Testing Machines Inc, a TMI Group company prepares for move to new US Headquarters in New Castle, Delaware

Beginning on June 1, 2010, Testing Machines Inc. will be moving to our new facility in New Castle, Delaware. The new facility will serve as the manufacturing location for Testing Machines Inc and the new corporate headquarters for the TMI Group of Companies.

After June 11, 2010, all business operations will be conducted at the new location and the Ronkonkoma, New York facility will be closed. Testing Machines has invested over \$300,000 in multiple projects to create an environmentally friendly plant including a solar power system with 160 solar power panels generating 50 kilowatts.

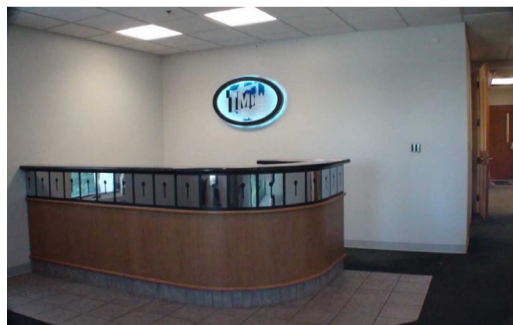

15 wells will provide Geothermal heating and cooling thus reducing energy consumption by 80 %.

Additional sustainability efforts and energy reduction include installing led lighting through out the new facility.

Our employees look forward to providing excellent customer support and service at our new modern facility. We hope to continue to meet and exceed your instrument and testing requirements.
